Carbon Fiber Radiator Support Cover

Excessive heat can cause major and expensive damage to critical components in a car. Engine bays, radiators, brakes, transmissions, and differentials all need good air flow to help transfer away unwanted heat. APR Hood Vents help channel out excessive heat that builds up in the engine bay.

SKU: CF-208006

Price: \$348

Carbon Fiber Rear Diffuser

Diffusers work in conjunction with other aerodynamic components of a car to help produce downforce. Because a car displaces air as it moves forward, the air molecules in the rear of the car get disrupted causing a vacuum of low-pressure air.
