

PRODUCT GUIDE

Application:

2008 – Current Dodge Challenger

Challenger Rear Deck Spoiler

Challenger Hellcat Airdam

Challenger Diffuser

PRODUCT GUIDE

Application:

2008 – Current Dodge Challenger

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2008-2010 Dodge Challenger R/T, SXT (non SRT8)

SKU: CW-723804
MSRP: \$560

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2011 – 14 Dodge Challenger R/T, SXT (non SRT8)

SKU: CW-723114
MSRP: \$560

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2015 – Current Dodge Challenger R/T & SXT

SKU: CW-723150
MSRP: \$560

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2008 – 2010 Dodge Challenger SRT8

SKU: CW-723810

MSRP: \$560

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2011 – 2014 Dodge Challenger SRT8

SKU: CW-723321

MSRP: \$560

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2018 – Current Dodge Challenger Widebody

SKU: CW-723181

MSRP: \$653

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2015 – Current Dodge Challenger Hellcat
SKU: CW-723151
MSRP: \$560

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2015 – Current Dodge Challenger Hellcat With Apr Airdam
SKU: CW-723505
MSRP: \$560

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2015 – Current Dodge Challenger SRT/Scat Pack
SKU: CW-723156
MSRP: \$560

PRODUCT GUIDE

Application:

2008 – Current Dodge Challenger

Carbon Fiber Front Air Dam

Underbody components such as front air dams, undertrays, and rear diffusers are essential for maximizing aerodynamic performance.

2015 – Current Dodge Challenger Hellcat (Does Not fit Widebody)

SKU: FA-723505
MSRP: \$1,489

Carbon Fiber Front Air Dam

Underbody components such as front air dams, undertrays, and rear diffusers are essential for maximizing aerodynamic performance.

***Does not fit non-widebody cars)**

2018 – Current Dodge Challenger Demon and Widebody

SKU: FA-723018
MSRP: \$1,645

Carbon Fiber Canards

APR Front Bumper Canards and Spats are the perfect answer to aerodynamically tune the handling for the front of a car. Made of lightweight and durable carbon composites, APR Front Bumper Canards and Spats help increase front downforce at high speeds. The added downforce stabilizes the cars chassis during hard cornering and increases traction for faster lap times.

2015-UP Dodge Challenger Hellcat (does Not Fit widebody)

SKU: AB-601720
MSRP: \$569

PRODUCT GUIDE

Application:

2008 – Current Dodge Challenger

Carbon Fiber Side Skirts

Made of lightweight and durable carbon fiber composites, APR Side Rocker Extensions help reduce lift at high speeds by preventing air at the sides of the car from rolling underneath the car. The reduced lift helps to stabilize the car during high-speed cornering and helps to increase traction for faster lap times.

2015 – Current Dodge Challenger

SKU: FS-723508

MSRP: \$1,834

Carbon Fiber GTC-300 67" Adjustable Wing

With a span of 67 inches and a height of 13 inches, the GTC-300 is an adjustable wing that means serious business. The GTC-300 3D airfoil shape allows for optimal airflow that reduces drag yet supplies an effective amount of downforce. Computational Fluid Dynamics (CFD) analysis was performed on this wing to support validation of its aerodynamic design.

2008 – Up Dodge Challenger

SKU: AS-106775

Price: \$2,129

Carbon Fiber Rear Deck Spoiler

The Rear Deck Spoiler is an aerodynamic component that can be used alone or in conjunction with other aerodynamic components to improve the overall efficiency of a vehicle's aerodynamic package.

2015 – Current Dodge Challenger

SKU: AS-105677

MSRP: \$1,144

PRODUCT GUIDE

Application:

2008 – Current Dodge Challenger

Carbon Fiber Rear Diffuser

Diffusers work in conjunction with other aerodynamic components of a car to help produce downforce. Because a car displaces air as it moves forward, the air molecules in the rear of the car get disrupted causing a vacuum of low-pressure air.

2015 – Current Dodge Challenger (does Not Fit SXT Models)

SKU: AB-723500

MSRP: \$1,677
