PRODUCT GUIDE

Application:

**2008 – 2016 Mitsubishi Lancer
Evolution X**

Carbon Fiber Front Wind Splitter

To combat the effects of front-end lift, APR Front Wind Splitters are utilized to give extra traction and control in the front of a car. By creating a high-pressure area on top of the wind splitter, high pressure air flow is restricted to flow underneath a car. With low pressure below the car, the effect of lift is reduced, and a driver can gain from the extra traction and control.

2008 – 2016 Mitsubishi Lancer EVO X

SKU: CW-489110

Price: \$560

PRODUCT GUIDE

Application:

**2008 – 2016 Mitsubishi Lancer
Evolution X**

Carbon Fiber Radiator Cooling Plate

To help improve the flow of air into the radiator, APR Carbon Fiber Radiator Cooling Plates can be utilized to channel the flow of air directly to the radiator. This will improve the efficiency of the radiator while adding a high-tech, race inspired look to your engine bay.

2008 – 2016 Mitsubishi Lancer EVO X

SKU: CF-410031

Price: \$480

Carbon Fiber Vortex Generator

APR Vortex Generators help to guide the air flow on cars with very steep drop-off angles between the roof and the rear window. Air flow tends to become turbulent as it separates from the surface of the car in this region. This turbulent air causes drag and reduces the effectiveness of a rear wing. The APR Vortex Generator helps to reduce drag and improve the effectiveness of the rear wing by delaying the air flow separation and reducing turbulence.

2008 – 2016 Mitsubishi Lancer EVO X

Non-Canadian GSR w/ SSS Package w/ Roof Hump Only

SKU: CF-410012

Price: \$426
