PRODUCT GUIDE

Application:

2022 – Current Subaru BRZ

Carbon Fiber Front Air Dam

Underbody components such as front air dams, undertrays, and rear diffusers are essential for maximizing aerodynamic performance.

2022 – Current Subaru BRZ

SKU: FA-822005

Price: \$975

Carbon Fiber Fender Vent Cover

Excessive heat can cause major and expensive damage to critical components in a car. Components in the engine bay need good air flow to help transfer away unwanted heat. APR Vent covers help reduce high pressure air that builds up in the wheel wells. Built using pre-preg. Carbon fiber reinforced polymer composite materials for superior strength-to-weight ratio, APR Fender Vent Covers add both function and "lightness" where it counts.

2022 – Current Subaru BRZ

SKU: CBX-GRBRZFC

MSRP: \$475

Carbon Fiber Front Bumper Bezels

Dress-up the exterior with carbon fiber, molded to precise dimensions that only pre-preg. Materials can achieve. These parts are exotic-looking, race-inspired, and are unmatched in quality.

2022 – Current Subaru BRZ

SKU: CF-822050

MSRP: \$550

PRODUCT GUIDE

Application:

2022 – Current Subaru BRZ

Carbon Fiber GT3 Mirrors

When it comes to reducing aerodynamic drag to a car, the APR Formula GT3 Mirrors are an excellent choice. The APR Formula GT3 Carbon Fiber Mirrors are designed to give race inspired looks with the functionality of reducing drag and eliminating blind spots with wide angle mirror lenses.

2022 – Current Subaru BRZ

SKU: CB-522032B

Price: \$480

Carbon Fiber Rear Bumper Spats

APR Rear Bumper Spats are the next step to help aerodynamically tune the handling of a car. Made of lightweight and durable carbon fiber composites, APR Rear Bumper Spats help reduce lift at high speeds by preventing air at the sides of the car from rolling underneath the car. The reduced lift helps to stabilize the car during high-speed cornering and helps to increase traction for faster lap times.

2022 – Current Subaru BRZ

SKU: FS-522025

MSRP: \$485

Carbon Fiber Side Rockers

APR Side Rocker Extensions are the next step to help aerodynamically tune the handling of a car. Made of lightweight and durable carbon fiber composites, APR Side Rocker Extensions help reduce lift at high speeds by preventing air at the sides of the car from rolling underneath the car. The reduced lift helps to stabilize the car during high-speed cornering and helps to increase traction for faster lap times.

2022 – Current Subaru BRZ

SKU: FS-522005

MSRP: \$1,500

PRODUCT GUIDE

Application:

2022 – Current Subaru BRZ

Carbon Fiber Vortex Generator

APR Vortex Generators help to guide the airflow on cars with very steep drop-off angles between the roof and the rear window and become turbulent as it separates from the surface of the car in this region. This turbulence causes drag and reduces the effectiveness of a rear wing. The APR Vortex Generator helps to reduce drag and improve the effectiveness of the rear wing by delaying the air flow separation and reducing turbulence.

2022 – Current Subaru BRZ

SKU: CF-522012

Price: \$475

Carbon Fiber Front Bumper Canards

APR Front Bumper Canards are the perfect answer to aerodynamically tune the handling for the front of a car. Made of lightweight and durable carbon graphite composites, APR Front Bumper Canards help increase front downforce at high speeds. The added downforce stabilizes the cars chassis during hard cornering and increases traction for faster lap times.

2022 – Current Subaru BRZ

SKU: AB-B22048

MSRP: \$550

Carbon Fiber Aero Kit

The aerodynamic kit for the GR86 combines all the best aerodynamic upgrades into a single package. This package is designed to improve high-speed handling, both on and off the track. Includes: Front Air Dam, Side Rocker Extensions, and Rear Skirt

2022 – Current Subaru BRZ

SKU: AB-822000

MSRP: \$2,664

PRODUCT GUIDE

Application:

2022 – Current Subaru BRZ

Carbon Fiber GTC-300 Adjustable Wing

With a span of 67 or 61 inches and a height of 13 inches, the GTC-300 is an adjustable wing that means serious business. The GTC-300 3D airfoil shape allows for optimal airflow that reduces drag yet supplies an effective amount of downforce. Computational Fluid Dynamics (CFD) analysis was performed on this wing to support validation of its aerodynamic design.

2022 – Current Subaru BRZ 61"

SKU: AS-106185

Price: \$2,310

2022 – Current Subaru BRZ 67"

SKU: AS-106785

Price: \$2,310

Carbon Fiber GTC-200 Adjustable Wing

The New GTC-200 adjustable wing offers the perfect amount of downforce for midsize and compact cars.

Each GTC Series airfoil is composed of lightweight and durable carbon fiber reinforced polymer (CFRP) composite materials. These airfoils contain pre-pregated woven carbon fiber sheets for superior strength and low weight.

2022 – Current Subaru BRZ

SKU: AS-105985

MSRP: \$1,340

Carbon Fiber License Plate Backing

Dress-up the exterior with carbon fiber, molded to precise dimensions that only pre-preg. Materials can achieve. These parts are exotic-looking, race-inspired, and are unmatched in quality.

2022 – Current Subaru BRZ

SKU: CBX-GRBRZLIC

MSRP: \$308

PRODUCT GUIDE

Application:

2022 – Current Subaru BRZ

Carbon Fiber Radiator Cooling Plate

To help improve the flow of air into the radiator, APR Carbon Fiber Radiator Cooling Plates can be utilized to channel the flow of air directly to the radiator. This will improve the efficiency of the radiator while adding a high-tech, race-inspired look to your engine bay.

2022 – Current Subaru BRZ

SKU: CF-522010

MSRP: \$285
